DESIGNER NOTES: It is not required that you use this template but it can be helpful in determining placement of logos, etc. Clipping masks are included so that you can easily insert your designs. Please provide vector artwork so that we can make edits if needed. If you zoom-in to your art and see square pixels, it is not vector. Also make sure that all text is expanded and images are embedded instead of linked.

If your design contains photo-realistic elements then non-vector artwork can be used. In this case the artist needs to design at a minimum of 150dpi, and TO-SCALE for best results. This proof is provided to-scale.
